

Copyright Infringement Policy

Copyright Infringement Policies and Sanctions: The *Catalog and Student Handbook* contains a section on academic dishonesty including plagiarism or otherwise claiming credit for others' work without proper approvals. The sanctions for such conduct include, but are not limited to a failing grade on the project/assignment, a failing grade for the course, and/or termination from the college. In addition, copies of the relevant copyright laws of the United States of America are posted in close proximity to the college's duplicating equipment. On occasion, faculty members attend in-service training about copyright laws and their application in educational settings.
